

## JPI-EC-AMR Joint Transnational Call for Proposals 2018

**“Innovation against antibiotic-resistant bacteria: new targets, compounds and tools  
Fundamental and translational research, with the exception of clinical trials.”**

### Pre-proposal application form

#### CHECKLIST FOR THE COORDINATOR:

***In order to make sure that your proposal will be eligible to this call, please collect the information required to tick all the sections below before starting to complete this application form.***

**- General conditions:**

- The project proposal addresses the **AIM(S)** of the call
- The project proposal meets the **TOPIC(S)** included in this call

**- The composition of the consortium:**

- The project proposal involves at least 3 eligible research partners from at least 3 different countries participating in the call.
- The project proposal does not include more than 1 or 2 eligible research partners funded by the same funding organisation. Please note that for **Italy**, there may be only one 1 participant per project, where as for the other participant countries, there may be up to 2 eligible partners per project. For Belgium, this is limited to one partner per region/community, which in practice comes down to one partner per participating Belgian funding agency.
- The consortium coordinator is eligible to receive funding from the funding organisations participating in the call.
- There are not more than 2 partners who secure their own funding and contribute substantially to the work packages present in the consortium. The coordinator and the majority of the partners in a consortium must be eligible for the funding organisations participating in the call. The budget of a non-funded partner shall not exceed 30% of total transnational project budget requested.
- The project proposal involves a maximum of 6 or 7 eligible research partners asking for funding. In case of inclusion of partners from Czech Republic, Egypt, Latvia, Poland or Romania the project involves a maximum of 7 eligible partners. Otherwise, projects may only include 6 eligible research partners. Partners not asking for funding must also be noted in the project proposal. The number of partners not requesting funding may not exceed two per project proposal.

Number of partners requesting funding (eligible partners)	3	4	5	6	6 (only with at least a partner from Czech Republic, Egypt, Latvia, Poland or Romania)	7 (only with at least a partner from Czech Republic, Egypt, Latvia, Poland or Romania)
Maximum number of additional partners with own funding	2	2	1	0	1	0

**- Eligibility of consortium partners:**

- I have checked that each partner involved in the project proposal is eligible to receive funding by its funding agency. Non eligible partners are therefore aware of that fact and a signed statement declaring that they will run the project with their own resources is enclosed in the proposal.
- (if applicable) Italian partners involved in the proposal have submitted a pre-submission eligibility check form to their national funding organization at least 7 working days before the submission deadline.

**Please note:**

- **Proposals that do not meet the national eligibility criteria and requirements will be declined without further review.**
- **All fields must be completed using Arial 11, single-spaced, margins of 1.27 cm. Incomplete proposals, proposals using a different format or exceeding length limitations of any sections will be rejected without further review. Please remove instructions in the final application.**
- **Once completed the pre-proposal must be converted in a single PDF document before being uploaded to the submission website.**
- **In case of inconsistency between the information registered in the submission tool and the information included in the PDF of this application form, the information registered in the submission tool shall prevail.**
