

# Postdoctoral Programme

EMBL INTERDISCIPLINARY POSTDOCS (EIPOD)

Welcome to the EMBL Interdisciplinary Postdocs (EIPOD) initiative.

The EIPOD programme underlines EMBL's strong commitment to promoting interdisciplinary research. The institution has a long-standing tradition of scientific excellence that builds on highly interactive research between the group leaders of [different research units](#). EIPOD projects capitalise on synergies emerging at the borders of overlapping yet separate scientific fields, and involve transferring techniques to a novel context. The programme is open to all nationalities and offers about 20 positions annually.

Features of the positions include

- Funding for cross-disciplinary projects
- Three years' of secure funding
- Providing generous health care benefits and pension access
- Development of a project proposal forms the basis for recruitment
- Additional partners from academia or industry are welcome
