BACKGROUND

ERA PerMed¹ is an ERA-NET Cofund, supported by 32 partners from 23 countries and cofunded by the European Commission. To align national research strategies, promote excellence, reinforce the competitiveness of European players in Personalised Medicine (PM), and enhance European collaboration with non-EU countries, 30 funding organisations have agreed to launch the second Joint Transnational Call for collaborative innovative research projects in PM. This represents the first of three potential additional calls of ERA PerMed not cofunded by the EC. The funding organisations participating in this call particularly wish to promote innovative interdisciplinary collaboration and to encourage translational research proposals. Please read the Call Text for further details.

REGISTRATION

Research project consortia who intend to submit a transnational proposal should register at <https://ptoutline.eu/app/erapermed2019>, by clicking on “**Sign up**” and following the further instructions. The system will likely open on 9 January 2019. To register, please complete the various sections as soon as possible.

<https://een.ec.europa.eu/about/about>
- Proposals should explain how the data gathered through the project would be available (findable, accessible, interoperable and re-usable) to the wider research community, even after the end of the project. In addition, ERA PerMed expects proposals to develop data management plans (DMPs) following the **FAIR principles**³. Consortia of projects selected for funding must submit a detailed DMP (template available on the ERA PerMed website). The project coordinator is responsible for sending the complete DMP to the JCS no later than three months after the official start of the project.
Compliance with the DMP must be reported in each annual scientific project progress report. Publication of scientific outcomes of the project is subject to open access and budget should be allocated for this in the proposal budget plan.
For guidelines: Horizon 2020 FAIR Data Management Plan - Annex 1 in http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/oa_pilot/h2020-hi-oa-data-mgt_en.pdf

INCLUSION OF SEX AND/OR GENDER ANALYSIS

Applicants are encouraged to visit the further link and to complete the modules in order to increase the quality of their applications concerning the integration of sex and gender-based considerations: <http://www.cihr-irsc.gc.ca/e/49347.html>

The inclusion of sex and/or gender analysis is part of the evaluation.

PROPOSAL SUBMISSION

Please read carefully the Call Text and the relevant central and regional/national eligibility and budgetary criteria (see Annexes) before starting your proposal to ensure you fulfil the call's formal requirements.

There will be a two-steps submission and evaluation procedure for joint applications: pre-proposals and full-proposals. In both cases, one joint proposal document (in English) shall be prepared by the partners of a joint transnational proposal, and must be submitted by only one spokesperson, the coordinator, to the JCS by uploading it on the electronic submission system (likely available on January 9 2019): <https://ptoutline.eu/app/erapermed2019> .

Please use the proposal templates (for pre- and full-proposals) provided on the ERA PerMed website (www.erapermed.eu), complete all fields, and respect the format of each section. Only proposals using the official template will be accepted. Please keep in mind that the templates have a fixed maximum size. Thus, the proposal document cannot be longer than the number of pages indicated in the proposal templates (DIN-A4, Calibri 11, single-spaced). In addition, the proposal, in a digitally signed PDF-Format file (with a scanned version of the original signature page) to be uploaded to the online tool, must not exceed 8 megabytes. Proposals exceeding these limitations will be rejected by the online system.

Deadline to submit pre-proposals: **7 March 2019 (17:00, CET)**

Deadline to submit full-proposals: **17 June 2019 (17:00, CEST)**

After these deadlines, the server will not accept proposals and it will not be possible to amend the proposal or to add further documents.

Please bear in mind that the online data entry system may be overloaded by the day of the deadline. Therefore, it is recommended to complete the registration and upload the proposal in proper time.

In case of inconsistencies between the information registered in the online submission tool and the information included in the PDF of this application form, the information registered in the submission tool shall prevail.

Applicants from some regions/countries might also need to submit the proposal and/or other information, before the deadline of this call, directly to the relevant regional/national funding organisations. Therefore, applicants are strongly advised to verify their respective region/country funding organisation's eligibility and other specific information (see tables below). For more details, applicants may also get in touch with the respective funding organisation's Contact Persons (see below). For central and additional information, you can contact the Joint Call Secretariat (JCS) at:

The French National Research Agency (ANR)

Monika Frenzel

50 Avenue Daumesnil, 75012 Paris, FRANCE

☎ +33 (0) 1 73 54 83 32

ERAPerMed@agencerecherche.fr

Please Note:

It is mandatory to meet the deadline and observe the format of the proposal structure.

The Joint Call Secretariat will check the proposals submitted to ensure that they meet the call's formal criteria (e.g. date of submission; number of participating member states; eligibility of the coordinator; inclusion of all necessary information in English and appropriate limits on length). In parallel, the Joint Call Secretariat will forward the proposals to the relevant regional/national funding organisations, which will formally check them for compliance with their respective eligibility criteria. Proposals not meeting the formal central and/or regional/national eligibility criteria will be rejected. Proposals passing both checks will be forwarded to independent international scientific experts for evaluation.

Potential project consortium coordinators are recommended to read the ERA PerMed funding organisations' eligibility criteria when looking for potential project consortium partners.

Project partners are strongly advised to read the specific eligibility criteria of the relevant funding organisations (Annex 2) and other requirements and to contact their respective Contact Person prior to submitting the application (see also "Call text" and Annex 1 of this document "List of National Contacts").

ANNEX 2: INFORMATION FOR APPLICANTS NATIONAL ELIGIBILITY CRITERIA

AUSTRIA

Funding Organisation	Austrian Science Fund (FWF) www.fwf.ac.at
Initial funding pre-commitment	0,9M€ Anticipated number of funded research groups: 3 projects
Regional/National contact for the Era PerMed JTC2019	Stephanie Resch Phone: +43 (1) 505 67 40-8201, E-mail: stephanie.resch@fwf.ac.at Iris Fortmann Phone: +43 (1) 505 67 40-8211, E-mail: iris.fortmann@fwf.ac.at
Eligible institutions	Individual researcher, working in any kind of non-profit organisation: e.g. University, University hospital, Non-university research institute <i>Please refer also to the general FWF Funding Guidelines:</i> http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf available on: http://www.fwf.ac.at/en/research-funding/application/international-programmes/joint-projects-era-nets/
Additional eligibility criteria	FWF Submission: In addition to the application at the call secretariat administrative data (in accordance with the FWF guidelines for stand-alone projects) must be submitted online to the FWF at https://elane.fwf.ac.at/ This is required already at the pre-registration stage via the programme category “IK – International Projects (preproposal, deadline 7. March 2019)”. For the full proposal stage applicants must choose the programme category “I – International Projects”, Deadline 17. June 2019. Both steps are mandatory.

	<p>For submissions to be valid, the cover sheet generated at the end of the online submission process must be printed out and signed. It can then either be sent to the FWF by conventional mail (FWF, Sensengasse 1, 1090 Vienna) or scanned in, given a digital signature and sent to the FWF (office@fwf.ac.at) as an e-mail attachment.</p> <p>Maximum number of ongoing projects: Stand-Alone Projects (P), International Programmes (I), Clinical Research (KLIF) and Arts-Based Research (PEEK) programmes: Starting on August 1st, 2018, each researcher may serve as the principal investigator in a maximum of three projects in the P, I, KLIF and PEEK programmes.</p> <p>Limits on submission of applications: The rule on the maximum number of ongoing projects in the programmes mentioned above leads to limits on the submission of new applications. The number of possible new applications depends on the number of currently ongoing/approved projects in the above mentioned programmes, including pre-proposals for International projects (IK). A maximum of three ongoing/approved projects and new applications is permitted. https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/project_number_limit.pdf</p>
Eligible costs	<p>For scientists funded by the FWF, the funding is limited to “project-specific costs, i.e. personnel and non-personnel costs that are essential to carry out the project and that go beyond the resources made available from the research institution’s infrastructure, according to the general FWF Funding Guidelines published at https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf</p> <p>The FWF does not finance infrastructure or basic equipment at research institutions. Overheads may not be requested. Subcontracts must be well justified, i.e. must represent the only or the most economical way to have the work performed, please contact the FWF directly for clarification of individual cases</p> <p>The application should include all persons, in addition to the staff already available, who will be required for work exclusively on the proposed project.</p> <p>The available legal categories of employment are contracts of employment for full-time or part-time employees (DV) and reimbursement for work on an hourly basis (GB). In addition, a part-time contract of employment (50% contract of employment for student assistants) may be requested for researchers who have not yet completed a master’s or diploma (<i>Diplom</i>) degree programme in the relevant subject area.</p>

	The current FWF salary scale (http://www.fwf.ac.at/en/research-funding/personnel-costs/) indicates the salaries that may be requested. The FWF grants an annual salary adjustment to compensate for inflation; this is applied automatically to all contracts of employment in stand-alone projects that are valid when the adjustment takes effect.
Funding of public-private partnerships allowed	YES

NORWAY

Funding Organisation	The Research Council of Norway (RCN), www.forskningsradet.no
Initial funding pre-commitment	0.8 Mio € Anticipated number of funded research groups: 3-4 projects
Regional/National contact for the Era PerMed JTC2019	Karianne Solaas, The Research Council of Norway Mobile phone +47-947 35 380 E-mail: kso@rcn.no
Eligible institutions	Norwegian universities, university colleges, hospitals, independent research institutes and other publicly funded research groups. Private industry is not eligible.
Additional eligibility criteria	<p>Clinical research/trials and translational studies allowing rapid implementation into public health-related decisions or into the clinic are encouraged.</p> <p>All applicants and partners must comply with the State Aid rules.</p> <p>All projects are to be carried out as effective collaboration between the partners. “Effective collaboration” is defined as follows: Collaboration between at least two independent parties to exchange knowledge or technology, or to achieve a common objective based on the division of labour, where the parties jointly define the scope of the collaborative project, contribute to its implementation and share its risks, as well as its results. One or several parties may bear the full costs of the project and thus relieve other parties of its financial risks. Contract research and provision of research services are not considered forms of collaboration.</p> <p>Undertakings (companies) ^[1] taking part in the consortium are not eligible to have any of their projects costs covered by the RCN allocation. These entities may not receive State Aid^[2] via the funding from the Research Council, but they must cover their costs themselves. In this context, “undertaking” is defined as companies and other entities that carry out economic activity consisting of offering products or services on a given market.</p>

	<p>Undertakings (companies) that participate in the consortium must also not receive indirect state aid in the form of advantageous conditions for cooperation with the research institutions taking part in the consortium.</p> <p>^[1] When research organisations engage in research and development in effective collaboration with others this activity constitutes non-economic activity. The EFTA Surveillance Authority considers R&D carried out by a research organisation in effective collaboration with others to be part of the organisation's independent R&D activity, as defined in the state aid rules. The research organisation is not considered an enterprise in the context of this activity.</p> <p>^[2] https://www.forskningsradet.no/en/State_aid_rules/1253979455092</p>
Eligible costs	<p>Payroll expenses, procurement of R&D services, consumables, network measures. Please follow the RCN research project budget rules in the following link: https://www.forskningsradet.no/en/Project_budgets/1254007196371</p> <p>However, PhD fellowships are not eligible within the RCN funding.</p>
Funding of public-private partnerships allowed	<p>No, please see the additional eligibility criteria above.</p>
Further guidance	<p>The Norwegian part of one project may apply 0.2-0.3 Mio € for a three-year project. However, if the Norwegian partner is the project coordinator, a maximum of 0.4 Mio € may be applied for a three-year project.</p>
