## Funding

# Grants4Targets Pharmaceuticals

The Grants4Targets crowdsourcing initiative in health offers you financial support to validate your pharmaceutical target and help test your hypothesis.

**Submission Status:** Active

**Deadline: September 30, 2019**  
**18 Days left**

[Add deadline to calendar](#)

## What's it about?

- Target validation and research in
  - Oncology,
  - Cardiology (including kidney and lung diseases),
  - Gynecological therapies,
  - Hematology.

## Who is this for?

- Universities
- Other academic research institutes
- Startup and biotech companies from all over the world with an interest in pharmaceutical R&D

## What do we offer?

- Research grants for drug targets from €5,000 to €125,000, whereby intellectual property rights remain with the applicant.
- Our expertise and technologies to help testing the respective hypothesis.
- A Bayer contact to help you with any questions; this may lead to opportunities for further collaboration with Bayer.
