

IMIM Collaborative Seed Projects

Internal CALL 2022

The budget for this grant was raised by Amics of Hospital del Mar Foundation to be used for research on breast cancer immunotherapy. This funding will be free of indirect costs.

⇒ Aim of the call

The aim of the call is to promote collaboration between IMIM research groups, following with what is stated in the "Internal Calls for Collaborative Seed Projects" action of the 2021-2024 IMIM strategic plan. The selected proposal will receive 43.250€.

⇒ Recipients

Any official IMIM group may apply to the call. IMIM associated or collaborator groups are not eligible for this call.

⇒ Project requirements

The project must consist in carrying out a proof of concept for a disruptive idea on the field of breast cancer immunotherapy. The project must be done between at least 2 IMIM research groups.

⇒ Conditions

- The project must have at least two Principal Investigators, each one from a different research group.
- Once the project is ended, the results will be exposed to the patronage of Amics del Mar, by one of the Principal Investigators.
- The duration of the project will be two years. Budget must be executed before October 2024.

⇒ Documentation and Deadline

Candidates should submit their application and documentation to the IMIM Department of Excellence, **no later than October 15th, at 1 pm** (email: recerca@imim.es; an electronic signature is mandatory (COMB certificate, FNMT or DNIE)).

The following documentation must be received:

- **An overview of the research project** including the following sections: objectives, method, expected results, the possible impact for society, and distribution of the budget. This shall be a maximum of three pages long.

⇒ Evaluation and Resolution

The Scientific Advisory Board of IMIM will select a maximum of 1 proposal to be funded, based in:

- scientific excellence (60%)
- feasibility (10%)
- possible impact for society (30%)

The resolution will be published on the PSMAR and IMIM intranets in October 2022.
