## About

The aims of the Clinical Fellowships are to spread the medical specialty of allergy and clinical immunology throughout Europe and to promote fellowships in allergy and clinical immunology in order to support highly skilled specialists in this field in Europe. The Fellowships are for EAACI members in training for allergy and clinical immunology early in their careers and are not intended for well-established specialists.

<b>Grant</b>	Clinical Fellows receive EUR 4,000 each to cover a 3 month clinical fellowship in a foreign European hospital and pay for accommodation and travel (receipts for these expenses are required)
<b>Note</b>	The Fellow's salary would be covered by the hospital of origin
<b>Duration</b>	The duration of the Clinical Fellowship is 3 months
<b>Eligibility</b>	EAACI Junior Members (JMs) in training or recently specialised in allergy and clinical immunology
<b>Fellowship Schedule</b>	All fellows have one year after the formal announcement to complete their fellowship, depending on the centres/fellow availability
<b>Report</b>	At the end of the fellowship the candidate must submit a report describing the activities undertaken, as well as feedback/suggestions. A brief report of the candidate should also be made by the centre
