Research Grants – One-Year Grants for Doctoral Candidates • DAAD

What requirements must be met?

Please check if the following criteria are fulfilled:

- As a rule, applicants should not have graduated any longer than six years before the application deadline
- If you have already started your doctorate, it also applies that the start of the doctorate should not be longer than 3 years ago.
Please also read our [Important Scholarship Information](#) / Section A, point 2.
- For applicants from the fields of human medicine, veterinary medicine and dentistry, other regulations are applicable.
Please refer to www.daad.de/extrainfo.
- Your application **cannot** be considered, if you have been resident in Germany for longer than 15 months at the application deadline.

- Applicants from third countries or German applicants, who live in a foreign country, are asked to get in touch with the responsible branch office or section within the DAAD before they hand in an application to discuss possible special application requirements.
- The scholarship should start with the winter semester (October); an earlier/later beginning is only accepted in very exceptional cases and should be discussed with the responsible branch office respectively section within the DAAD before submitting the application.

Language skills

- The required language level depends on the applicant's study plans and subject: In the arts, social sciences and in law, at least a good knowledge of German is usually expected. For the natural sciences and engineering, proof of good English language skills may also be accepted if English is spoken at the host institute.
- Good German language skills – especially for researchers taking arts subjects – are usually a requirement for a research project in Germany. Exceptions are possible if research grant holders are participating in a programme which is taught in English.
