

# IBRO Collaborative Research Grants

Mar 1, 2023

## Closed |

The IBRO Collaborative Research Grant program seeks to foster international scientific collaboration and development of human resources within and between IBRO regions. The main goal of the award is to facilitate collaboration between a) two emerging research groups or b) one emerging and one established research group.

Awards will cover the costs of travel, accommodation, subsistence and research between the two groups. Awards are not intended to cover any indirect or overhead costs.

### **General Eligibility Requirements:**

- Applicants must have been principal investigators for seven years or less. Any extended breaks from research (e.g. maternity, paternity or adoption leave) is accepted and should be justified in the application
- At least one research group should be an emerging laboratory

### **Fellowship Specifications:**

- Collaborations must begin in 2024
- The collaboration must include bi-directional travel of principal investigators, postdocs and/or students that plan to work on the scientific collaboration defined in the project application
- The defined collaboration must be completed within two years from the collaboration start date
- The required funding report should be submitted one year from the collaboration start date
- Funds will be transferred according to an 80:20 format, meaning 80% of the grant will be awarded two months prior to the start date of the collaboration, and the remaining 20% upon completion and submission of the associated grant report

### **Regional Eligibility Requirements:**

**Collaborations between two different IBRO regions** are open to scientists from all IBRO regions (Asia-Pacific, Africa, Latin-America, Pan-Europe, US/Canada<sup>\*</sup>).

<sup>\*</sup>Collaborations with laboratories in the US or Canada are permitted. However, the application should be submitted by the collaborator located in the other region (Asia, Africa, Latin-America or Europe).

**Collaborations within the same region** are open only to scientists from Latin America.

### **Applications dates:**

**01 March to 31 March 2024**

**Maximum Grant Amount: 6,000 EUR**
