

6 - 9 S E P T E M B E R 2 0 0 7

the
**9th International Meeting on Human Genome
Variation and Complex Genome Analysis**
Sitges, Barcelona, Spain

The HVG2007 scientific sessions will start on 6th afternoon and end on Saturday 8th morning.

It is a pleasure for us to announce that HGV2007 edition will be held in the Hotel Dolce Sitges.

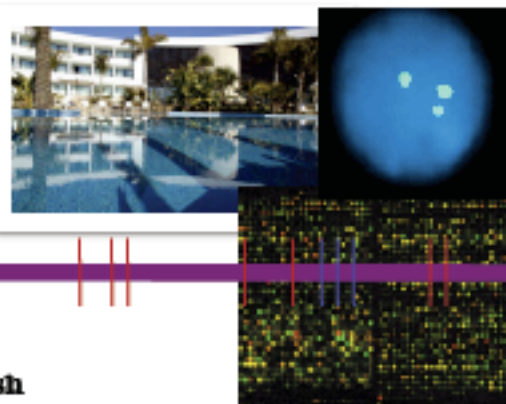

This is a conference-resort hotel located in Sitges, Catalonia, Spain. It is situated by the coast to 35 km (22 mile) south of Barcelona, 25 minutes from Barcelona International Airport and 35 minutes from the city centre of Barcelona.

Social activities

On 8th afternoon we will have leisure time to go on excursion or to enjoy the recreational facilities of the hotel. Later on we will have a Gala Dinner. It will be a good opportunity to close collaborations and to relax with the night views of the Mediterranean.

Due to the last discoveries and exciting results that will be published in the next months, we consider this edition of the meeting one of the best opportunities for the investigators and companies to establish

collaborations in a very promising moment. We think that the exceptional location in a privileged landscape will help us to create a good atmosphere for the science and to enjoy the conference. It would be a pleasure to share it with you.

The Organizers

Anthony J. Brookes

(University of Leicester, UK)

Stephen J. Chanock

(National Cancer Institute, USA)

Nancy Cox

(University of Chicago, USA)

Xavier Estivill

(Center for Genomic Regulation, Spain)

Pui-Yan Kwok

(University of California, USA)

Steve Scherer

(Hospital for Sick Children, Canada)
